Boston School of Modern Languages

Summer Program

Every year students from all over the world come to Boston to study English and the American culture at BSML!

BOSTON SCHOOL OF MODERN LANGUAGES

ENGLISH ... LEARN IT ... LIVE IT ... LOVE IT!

ABOUT BSML

The Boston School of Modern Languages is America's first and leading private English language school. For over 85 years BSML has taught English to students of all ages from all over the world. Our teachers are highly qualified and university educated. We are known for our warm, caring staff that takes an interest in each individual.

Our youth and children's programs are designed to teach English skills to children between the ages of 4 to 12 in a nurturing and fun-filled environment. The curriculum is designed to provide a solid foundation in the fundamental skills of English using methods that are well suited for the way children learn. The classes are filled with activities that are both fun and educational.

Your child will learn vocabulary, grammar and idiomatic expressions, which are critical to creating a solid foundation for future development in English. They will also learn the correct pronunciation for every word and phrase. The program will also impart important facts about American history, culture and geography.

Each day, we also provide a delicious mid-morning breakfast break and a complete lunch. Our in-house chef prepares nutritious meals and homemade baked goods.

ABOUT OUR PROGRAMS

English for children ages 4 to 7

Your young children will absorb English through games, songs and stories. Fun activities will introduce them to the sounds and structure of English. Each day, your child will take home things he/she has made. This early exposure to English will spark their interest and lay a foundation for future study.

English for children ages 8 to 12

Children of this age learn a language quickly. Under the guidance of an experienced teacher, your child will soon be using English words learned by studying and playing with other children. Numbers, colors, foods, animals, and clock time are some of the things that your child will be able to identify and use in English. There will be enjoyable school trips outside of the classroom to places such as the park, the zoo, and the museum.

ACTIVITIES AND OPTIONAL TRIPS

Afternoon activities include beach outings, swimming, sailing, hiking, biking, museum tours, shopping tours, historical sites, whale watching and sports activities.
